GROUP ACTIVITY SCHEDULING WITH REAL-TIME HEADCOUNT

The Problem : Dates, times, and locations get buried in LINE/Facebook group chats

Organizers must recount people who want to join

Result: confusion, forgotten appointments

Who Is Affected

Organizers: fear ending up short of people, tired of manual counting

Participants: fear joining full or closed sessions, getting lost, forgetting the schedule

Our Solution

is web app that can show map pinning, live spot counts, auto-close deadlines, in-room chat,and can add to Google Calendar

FR-1 Create session, FR-2 Join/leave, FR-3 Real-time status, FR-4 Map display,
FR-5 In-room chat,FR-6 Auto-close,FR-7 Add to Google Calendar
